AIHEC Student Conference

FPCC will be sending a delegation of students to the annual AIHEC Student Conference to be held in Minneapolis, MN on March 14-16. Students will be competing in both individual and team academic competitions such as:

• Knowledge Bowl
• Business Bowl
• Handgame
• Science Bowl
• Webpage Design
• TCJ Writing Competition

TRIBAL COLLEGE DEBATE WORKSHOP

Last Wednesday Student Senate hosted a “Tribal Debate Workshop” presented by representatives from Rocky Mountain College. The impetus for the workshop is to address the discourse surrounding controversial issues on Native American reservations where conditions are often couched within the existing government structure on the reservation and the state. A debate program that allows for discussion of these issues will enable students and citizens to explore both sides of the controversial questions to gain a better understanding of the policy implications. The TCD Program will provide a needed platform for civic engagement in these communities.

The TCD program is a great opportunity to create a network of debate and civil engagement between colleges that currently do not have an established relationship. In addition, this program will allow students to become active citizens in controversial decisions that are made in their communities. For more information about the program visit: www.tribalcollegedebate.com

EARLY CHILDHOOD EDUCATION AT FPCC

Move towards your future in Early Childhood Education today.

• FPCC offers an Associate of Applied Science (AAS) degree in Early Childhood Education.
• Program of study courses transferable to universities in Montana.
• Program designed to meet the needs of children from birth through age eight.
• Professional growth opportunities for those in Child Care Centers, Head Start, and Pre-Schools.
• Professional growth opportunities for para-professionals in elementary grades.
• Opportunities for elementary schools to connect with college students in their classrooms.
• Learn about children’s characteristics and needs.
• Know about multiple influences on development and learning.
• Learn how to involve families in their child’s development and learning.

For more information about the program call Valarie Boyd at 406-768-6373 or email: vboyd@fpcc.edu
