PRE-ENGINEERING AT FPCC

The Associate of Science Degree [AS] in Pre-Engineering is designed to prepare students to transfer to a four-year institution to complete their Bachelor of Science [B.S.] degree in engineering. Students can complete the first two years of the engineering degree program at Fort Peck Community College [FPCC]. The Pre-Engineering program provides students with a strong foundation in mathematics, physics, chemistry, and introductory engineering courses that enable them to successfully complete their engineering degree. Students can transfer to any university of their choice, but the pre-engineering program is designed as 2 + 2 program between FPCC and Montana State University-Bozeman.

NATIVE PEOPLES' CONCEPTS OF HEALTH AND ILLNESS

An interactive exhibition that examines concepts of health and medicine among contemporary American Indians, Alaska Natives, and Native Hawai'ians and features interviews with more than one hundred tribal leaders, healers, physicians, educators, and others. There will be health related programs offered during March.
